Professional Summary

- Software Quality Engineer with 3+ years of experience in manual and automation testing (Java, Selenium, TestNG). Skilled in functional, regression, and end-to-end testing with hands-on expertise in REST API testing (Postman, Rest Assured), as well as experience with Azure DevOps, Jenkins, and Agile Scrum methodologies

Technical Skills

- **Programming:** Java (Core Java)
- **Test Automation:** Selenium WebDriver, TestNG, Maven, Page Object Model (POM)
- **API Testing:** Postman, Rest Assured
- **Version Control & CI/CD:** GitHub, Jenkins
- **Test & Defect Management:** Azure DevOps
- **Testing Types:** Functional, Regression, Sanity, End-to-End
- **Methodologies:** Agile Scrum

Experience

- **Infosys** April 2022 - Present
Software Quality Engineer
 - Performed Functional, Regression, Sanity, Smoke, and End-to-End testing to ensure software quality and performance.
 - Developed and maintained Selenium automation scripts using Java, TestNG, and POM, reducing manual testing effort by 20%.
 - Automated REST API testing using Postman and Rest Assured; validated CRUD operations, response status codes, and headers.
 - Created and maintained test documentation (test plans, test cases, test cycles, test reports) in Azure DevOps for full traceability.
 - Tracked, logged, and managed defects in Azure DevOps, contributing to a 30% improvement in defect resolution time.
 - Participated in Agile Scrum ceremonies: Sprint Planning, Daily Stand-ups, Reviews, and Retrospectives.
 - Conducted environment health checks and deployment validations to ensure readiness in non-production staging environments
- **Diya Systems** Jan 2021 - Dec 2021
Technical Support Engineer
 - Provided technical support for website hosting and domain management, resolving customer issues, and assisted in website setup, performance optimization, and security configurations to enhance site reliability and user experience.

Projects

- **Client: Northern Trust**
 - **Intellect Liquidity Engine:** Performed functional and regression testing, and built automation scripts using Java, Selenium WebDriver, TestNG, and POM, reducing manual effort by 20%. Maintained test documentation and defect logs in Azure DevOps.
 - **Balance Cash Hub:** Validated user stories and executed INT/UAT test cases; documented results and participated in Agile ceremonies, ensuring proper test coverage and reporting
 - **Cash Regression:** Performed sanity and regression testing; collaborated with cross-functional teams and shared updates during daily stand-ups in Agile sprints

Education

- **KVG College of Engineering, Sullia** 2020
Bachelor of Engineering (Electronics and Communication)

Awards And Recognition

- Received Infosys 'Insta Award' and 'Rise Award' for Exceptional performance
